

What is your least favorite part about the prize machine?

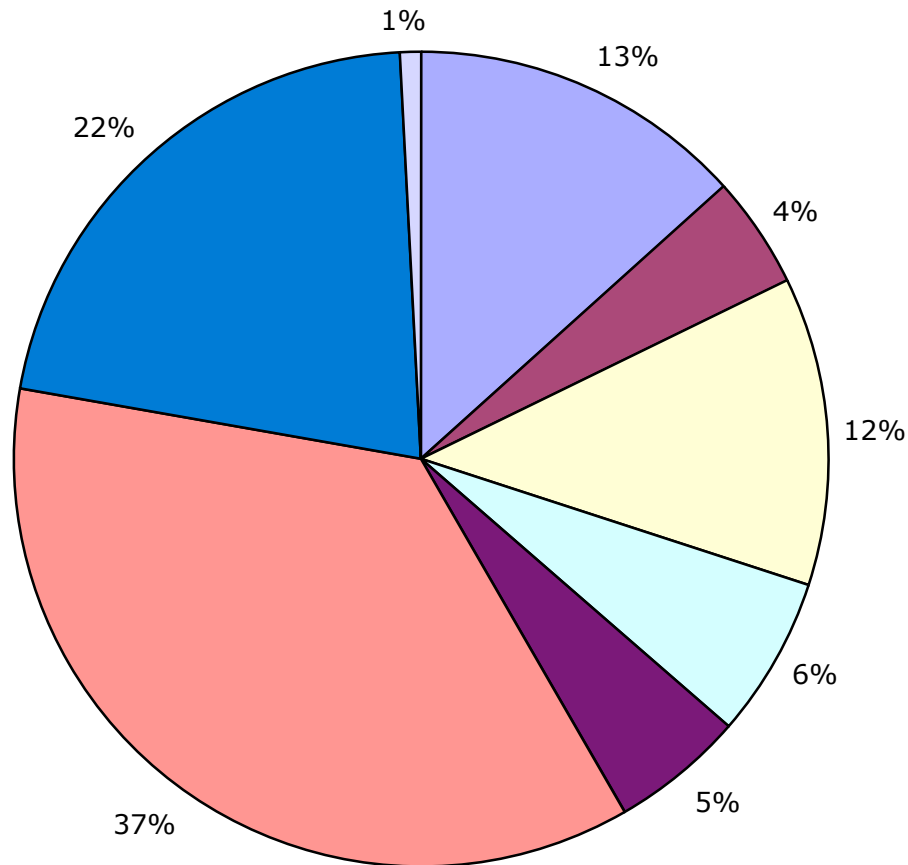

- The items I get are not useful to me (can't be used or sold).
- The same items stay in the machine too long.
- I get the same item regularly.
- The items are in-character, but not for my character type.
- In 2003, 20% of prize items have been OOC in nature. This is too high.
- In 2003, 80% of prize items have been IC in nature. This is too high.
- None of the items in 2003 have my name or initial in them. Bring back names!
- In 2001-2003, approx. 50% of items have been in color. This is too high.
- In 2001-2003, approx 50% of items have been in color. This is too low.

Items: Hopes Vs. Expectations

Favorite Proposed Change

- Make a separate machine for IC and OOC items.
- Change items very frequently.
- Re-issue old and popular prize machine items.
- Offer more "normal" strings rather than exotic or colorful items
- Offer more "collector" type items rather than equipment strings
- Give a choice of many different themed machines -- holiday, medieval, etc.
- Allow a chance to steer towards one item on a list.
- I have a different idea that I'm mudmailing in or posting to a board.
